EXPERIENCE

Occupational Therapy Consultant, 2017-present

- Consulting for therapists regarding evaluations, treatment planning, and intervention for their clients
- Providing education and home therapy training directly to parents who have concerns regarding their child's development
- Advising and adjusting home environments to address client factors affecting occupational performance necessary to complete daily activities

Children's Therapy Works, 2010 – 2017

Occupational Therapist

- Provided diagnostic and treatment services to children with diagnoses of, but not limited to: autism spectrum disorder, developmental delay, ADHD/ADD, cerebral palsy, Down syndrome and other chromosomal abnormalities, mitochondrial disease, tuber sclerosis, dyspraxia, and sensory integration dysfunction
- Led intensive therapy programs involving planning, intervention, and collaboration with professionals/families.
- Instructed patients and family in treatment planning, expected outcome, and home programming
- Selected and administered appropriate intervention and assessments with proper attention to age-appropriate considerations and patient safety
- Collaborated with other disciplines to obtain maximal benefit from client treatment
- Administered QEEG Brain Mapping, Hyperbaric Chamber Therapy, Sensory Learning Program and other specialized interventions
- Provided therapeutic consultation/intervention for academic development of Academy of North Fulton
- Served as a liaison between therapy staff and administration as Therapy Team Manager from 2013-2015
- Supervised Level I and Level II occupational therapy students, TAG interns, and volunteers
- Trained new staff members and provided In-Service education in office protocols and procedures, when necessary
